

North Carolina COVID-19 Vaccine Management System (CVMS)

Healthcare Provider (HCP) User Onboarding Template User Guide

Version 8

April 19, 2021

NC DEPARTMENT OF
**HEALTH AND
HUMAN SERVICES**

If you have any questions, issues or requests, please go to the
CVMS Help Desk Portal* at https://ncgov.servicenowservices.com/csm_vaccine

If you are in North Carolina, you can also call the COVID-19 Vaccine Provider Help Center at (877) 873-6247 and select option 8. The COVID-19 Vaccine Provider Help Center is available during the following hours:

Monday– Friday: 7:00 AM – 7:00 PM ET

Saturday– Sunday: 10:00 AM – 6:00 PM ET

* On the home page of the CVMS Help Desk Portal, select the "**Vaccine Provider**" option to submit your question, issue, or request.

Providers that are first time users of the CVMS Help Desk Portal will have to follow the steps below:

1. Register for an account on the portal by clicking 'Register' in the top right-hand corner
2. Populate your first name, last name, business e-mail, and your registration code

NOTE: The registration code is your Provider PIN (i.e., NCA650001), which can be found on the packing lists received with your Vaccines For Children shipments, or in the top right-hand corner of a wasted/expired report generated from the North Carolina Immunization Registry (please add "NCA" to the front of the six-digit PIN#)

For providers who are not enrolled or may not have a Provider PIN, you may use the following generic Provider PIN to register: VAC2021

3. You will receive an e-mail with your username and temporary password to log into the portal

CVMS Provider Portal Access Process Overview

Overview

CVMS Provider Enrollment Portal

NCDHHS opens the process to Healthcare Providers to complete the application and agreements in order to be eligible to receive and administer COVID-19 vaccines from the specified Provider location(s).

CVMS Provider Portal

Upon approval through the Provider Enrollment process, Healthcare Provider will be able to add CVMS users to manage COVID-19 vaccine inventory, check-in recipients, and document the administration of COVID-19 vaccines.

CVMS Organization Portal

Selected non-healthcare provider organization can be invited to register and then upload eligible recipients so these recipients are invited to register in the CVMS Recipient Portal to receive the COVID-19 vaccine.

COVID-19 Vaccine Portal

COVID-19 vaccine recipients are currently invited to register as identified by their Healthcare Provider and Non-Healthcare Provider frontline organizations. Recipients will complete their registration in the COVID-19 Vaccine Portal and be able to view their proof of vaccination.

As a Healthcare Provider, you will need to request access to the CVMS Provider Portal for your employees (HCP Users) who will be managing and administering COVID-19 vaccines. When completing an HCP User Onboarding Template, you will typically focus on the following core areas:

1. Completing the HCP User Onboarding Template
2. Correcting File Errors

The HCP User Onboarding Template is typically completed and submitted by the **Organization Administrator** or the **Vaccine Coordinator**. HCP Users can also be granted access to the CVMS Provider Portal by an already added Healthcare Location Manager via the **Account Management** tab. Only one provider can be added at a time. Therefore, the HCP User Onboarding Template can be used for bulk uploads of HCP Users to the CVMS Provider Portal.

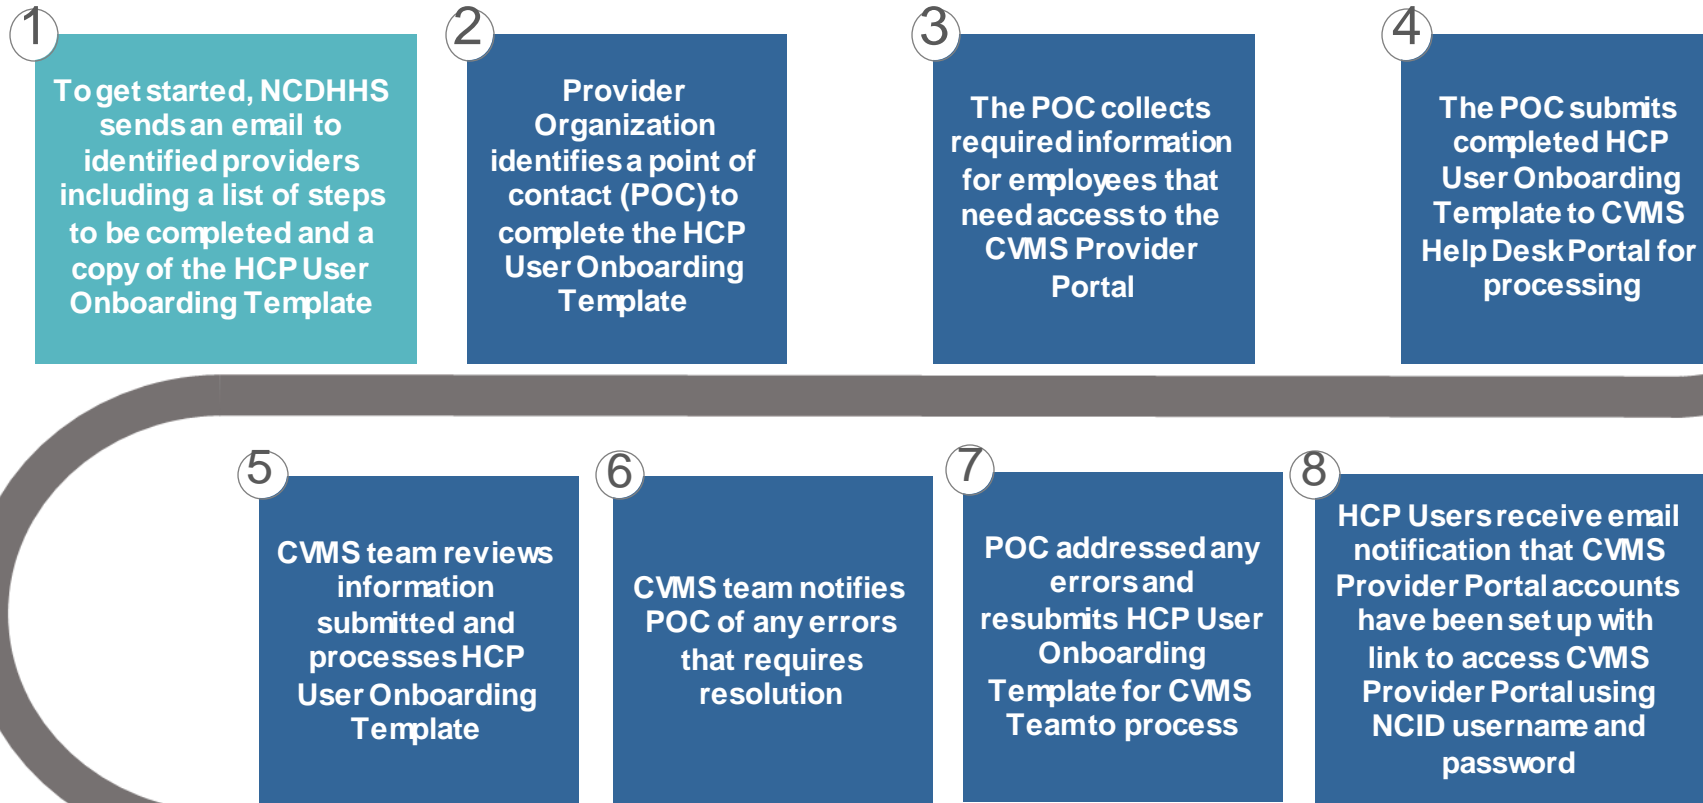

You will need to:

- Log into the CVMS Help Desk Portal:
https://ncgov.servicenowservices.com/csm_vaccine

Now, let's get started!

CVMS Provider Portal Onboarding Overview

The Vaccine Coordinator (or similar role within your organization) **can complete the HCP User Onboarding Template** for individuals that will need access to the **CVMS Provider Portal** to manage inventory and enter vaccine administration details.

Tips

If a Healthcare Location Manager already has access to the CVMS Provider Portal, they can connect to the CVMS Provider Portal, select the Account Management tab, and add / manage / deactivate HCP Users to the CVMS Provider Portal directly.

Terminology

Onboarding

“Onboarding” is the process of granting designated employees (HCP Users) access to the CVMS Healthcare Provider Portal. Only provider organizations and locations that have been approved through the CVMS Provider Enrollment Portal are eligible to begin onboarding.

Location

The Healthcare Provider location where vaccines will be shipped to and HCP Users will be administering vaccines. This location must have been approved within Provider Enrollment Portal.

NCID

North Carolina Identity Management Service (NCID) is a statewide identity and access management web-based application that provides a secure environment for state agency, local government, business, and individual users to log in and gain access to the state's applications.

Profile

When completing the HCP User Onboarding Template, a Profile will need to be assigned to each user requiring access to the CVMS Provider Portal. There are two User Profiles to choose from: The *Healthcare Provider Profile* and the *Healthcare Location Manager Profile*.

- A *Healthcare Provider* is responsible for Recipient check-in, point-of-care Recipient registration, Recipient eligibility verification, and vaccine administration detail capture.
- A *Healthcare Location Manager* is responsible for viewing, receiving, and adding inventory, viewing orders and shipment details, viewing and updating vaccine inventory levels, managing location inventory, performing Recipient bulk upload, managing Scheduling of appointments (optional), adding / managing / deactivating HCP Users, adding frontline organizations, reviewing reports, and additionally – all of the activities that a Healthcare Provider can do.

Complete the HCP User Onboarding Template

Step 1 of 10: Save and Rename the File

The **HCP USER ONBOARDING TEMPLATE** can be found on the NC Immunization Branch website at [NC DPH, WCH: Immunization: Providers](#) under Step 2.

Following the naming convention in the template, save and rename the file using the Organization Name and Submission Date of the file.

1. Confirm you have the **HCP USER ONBOARDING TEMPLATE** (named “(Organization) HCP (Date).xlsx”)
2. Rename the file according to the naming convention

Tips

The HCP User Onboarding Template is available at [CVMS User Guides, Recorded Trainings and Upcoming Trainings | NC DHHS COVID-19](#)

Step 2 of 10: Complete Preparer Information

COMPLETE THE PREPARER INFORMATION at the top of the spreadsheet.

1. Enter the organization name. Make sure the name matches what was entered in the CVMS Provider Enrollment Portal
2. Enter your name, email address, title (or role) and phone number

[illegible]

Vaccine Coordinator

Healthcare Location Manager

Step 3 of 10: Add User Data to HCP User Onboarding File

For all Healthcare Providers or Employees who require access to the CVMS Provider Portal, you will need to collect their information.

Enter the following information in the template:

- 1. Healthcare Provider/Employee first name and last name used during NCID registration at <https://ncid.nc.gov>
- 2. Healthcare Provider/Employee NCID username and email address used during NCID registration

Note: If users need to be associated with multiple locations, create one line for each location requiring access with the same information in the first 5 columns

- 3. For the **PROFILE** field, select from the drop-down menu either “Healthcare Provider” or “Healthcare Location Mgr.” (Healthcare Location Manager).

Tips

The employee’s first name, last name, and email address must be match exactly what was used when they registered for a Business NCID at <https://ncid.nc.gov>.

If they do not match, they will not be successfully processed. You will have to correct the information and resubmit them, **which will cause a delay in their getting access to the CVMS Provider Portal.**

Step 4 of 10: Add Locations information

For each user, enter the location details:

- 1. LocationName (Make sure the name matches what was entered in the CVMS Provider Enrollment Portal)
- 2. LocationStreet Address, City, and Zip Code

Profile	Location Name	Location Street Address	Location City	Location Zip Code

Note: If a user needs to be associated with multiple locations, enter the user’s same details in the first five columns, and the specific location details in the last four columns.

Healthcare Location Manager

Tips

If a user is operating from multiple locations, create one line in the Excel spreadsheet for each location the user will operate from.

Step 5 of 10: How to Determine the Correct NCID Username

A **NORTH CAROLINA IDENTITY (NCID)** is required to access certain NCDHHS applications, such as CVMS. If a person does not have an NCID, they must register for one at <https://ncid.nc.gov>.

For instructions on how to create an NCID, refer to the appendix of this User Guide.

Make sure that the First Name, Last Name, and Email Address matches the information used to register for an NCID. Any discrepancy will delay the user from receiving access to CVMS.

Tips

The NCID username does not start with NCC*, as that is the name of the server. When registering for NCIDs, users are recommended to pick a username following first initial + last name format if available.

Step 6 of 10: How to Determine the Profile of a Provider or Employee

Use the chart below to help identify the appropriate **PROFILE** for each listed employee based on their role and need for access to CVMS functionalities. **THE TWO OPTIONS ARE HEALTHCARE PROVIDER AND HEALTHCARE LOCATION MANAGER.**

Note: if a user is operating from multiple locations, please select the same profile at each of these locations.

Profile	Home Tab	Appointment Walk-In	Today's Appointments	Recipient Tab	Vaccine Consent	Vaccination Details (Administer the vaccine)	View Proof of Vaccination	Help & Information	Shipments	Vaccine Inventory (Add Inventory, Waste, Return, Transfer)	Recipient Bulk Registration	Locations Tab (Vaccine Site Locator)	Reports	Scheduling (optional)

11	Doris	Gamma	DGamma_QHosp	Doris.Gamma@qualityhospital.test	Healthcare Location Mgr	Add	Quality Hospital Location 2	1 broad way

Step 7 of 10: Verify & Save Data to Submit File

You are now ready to **REVIEW ALL REQUIRED HEALTHCARE PROVIDER USER DATA** that you have entered and **SAVE THE FILE FOLLOWING FILE NAMING CONVENTION**.

What is the correct file naming convention?

1. Click the **FILE** button
2. Click **SAVE AS**
3. **ENTER A FILE NAME** using the file naming convention “(Organization Name) HCP (Date)”
4. Click **SAVE**

The screenshot shows a 'Save As' dialog box. The file name field contains the placeholder text "(Organization Name) HCP (Date)". The file type is set to "Excel Workbook (*.xlsx)". A red rectangle highlights the file name field. A mouse cursor is pointing at the file type dropdown. A 'Save' button is visible on the right.

The screenshot shows the same 'Save As' dialog box, but the file name field is now filled with "Washington County Health Dept HCP 12-02-20". The file type remains "Excel Workbook (*.xlsx)". A red rectangle highlights the 'Save' button. A mouse cursor is pointing at the 'Save' button.

Step 8 of 10: Initiate an HCP User Onboarding User Upload Request

You can now initiate an **HCP ONBOARDING & RECIPIENT BULK UPLOAD REQUEST**.

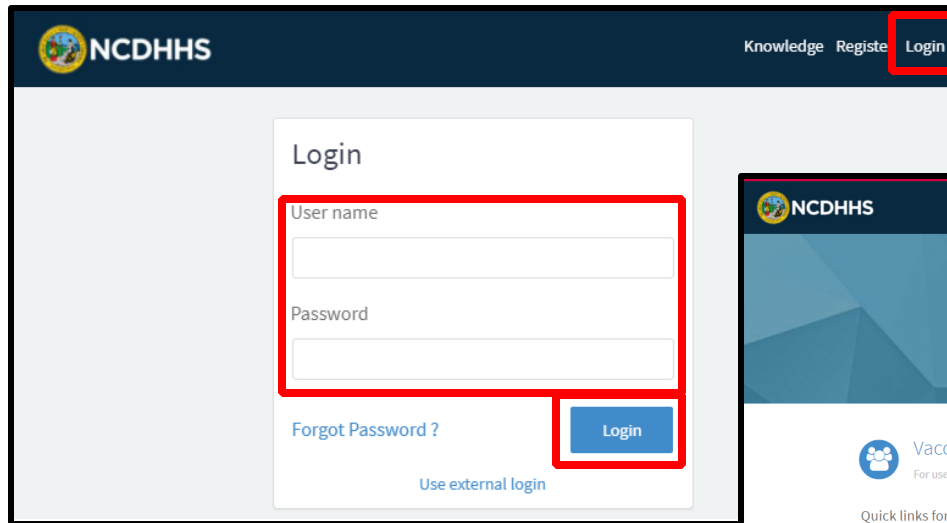

1. Navigate to the CVMS Help Desk Portal at https://ncgov.servicenowservices.com/csm_vaccine
2. Click on **LOGIN** and enter your CVMS Help Desk Portal username and password (please reference slide 2 if you have registration or log in questions)
3. From the Home page, click the **HCP ONBOARDING & RECIPIENT BULK UPLOAD** button
4. After clicking on the request button, select **HCP USER ONBOARDING** from the request type field

Add or Remove Locations to Users

Adding Multiple Locations Per NCID

If a user needs to be associated with multiple locations, enter the user's same details in the first five columns, and the additional location details in the last four columns.

- 1. In NCID Username, enter the same NCID Username as on the first location
- 2. In LocationAction, select ADD from dropdown menu or enter Add

Tips

If a user is operating from multiple locations, create one line in the Excel spreadsheet for each location the user will operate from.

Remove Locations

For each location to remove from a user, enter the location details:

- 1. In NCID Username, enter the current NCID Username for each listed location
- 2. In LocationAction, select REMOVE from drop down menu or enter Remove
- 3. Enter the applicable Location Name and Street Address, Location City, and Location Zip Code
- 4. If all locations linked to a user are removed, the user’s access to the CVMS Provider Portal will be revoked

Note: If a user needs to be dissociated from multiple locations, enter the user’s details in the first five columns, and the specific location details in the last four columns.

Changing one User with Multiple NCIDs to a User with a Single NCID for multiple locations

If a user had multiple NCIDs to connect to multiple locations, you can simplify their access by:

- 1. Remove locations associated to NCID usernames they do not wish to use any longer
- 2. Add the same locations to the NCID username they wish to keep
- 3. Do not list the location associated to the NCID username they wish to keep on the template

For example, for a user with 3 NCIDs for 3 locations, you can send a file to remove the 2 NCIDs they do not wish to keep and add 2 locations with the initial NCID username listed for the two locations.

View and Re-Submit File Errors

Step 1 of 4: Receive Notification with File Errors

While processing your HCP User Onboarding Template, the team may encounter issues or errors within the file. If any employees or individuals included in your **HCP USER ONBOARDING TEMPLATE FAILED, YOU WILL RECEIVE AN EMAIL NOTIFICATION FROM CVMS HELP DESK PORTAL (ncgov@servicenowservices.com)**.

The attachment included with your case will **CONTAIN THE FAILED RECORDS** in the same HCP User Onboarding Template format. It will also include the **CELLS HIGHLIGHTED IN RED THAT NEED TO BE CORRECTED** or cells highlighted in yellow that have been corrected.

1. Open the email notification
2. Click on the link in the email to view your case in your browser. In addition, review any comments from the IT Service Desk agent.
3. When viewing your case, reference the Attachments section on the right for another file with “_ERROR.xlsx” appended to end of the filename.

Step 3 of 4: Fix File Errors – Potential Reasons for Failure

There are a few reasons why an individual record may fail – from blank fields to invalid data formats.

Potential Error Reasons:

Error	Cell Color	Corrective Action Needed
Incorrect NCID	Yellow	Original NCID submitted was incorrect, however, we were able to identify the correct NCD and updated it in the form. <u>Please communicate the correct NCID to your employee as they will need this information when logging into the CVMS Provider Portal.</u>
Incorrect NCID	Red	Double check with the individual that the NCID username is correct and is not associated with another user. If the NCID username is valid, check that the individual has completed the NCID registration process. Follow all steps within the NCDHHS NCID Registration User Guide documentation.
Missing or incorrect profile	Red	Select Profile type from the drop-down in column E.
Duplicate email	Red	An email address can only be associated with a single person. Please update the records to have unique email addresses.

Step 4 of 4: Save and Re-Submit File

Once you reviewed and corrected any recipient data errors, you are ready to **RE-SUBMIT THE UPDATED FILE**.

- 1. On the same sheet with errors colored in red, take the **CORRECTIVE ACTIONS** in order to fix the errors
- 2. Change the cell from **RED** to **GREEN**
- 3. **SAVE** the file following the **NAMING CONVENTION** with the new date of submission, if applicable
- 4. Go to your ticket on the CVMS Help Desk Portal and **ATTACH THE UPDATED FILE** by clicking on the paperclip icon and click **SEND**

Tips

The CVMS Provider Portal uses NCID for secure access management.

To learn more about how to set up a NCID Username, please refer to the Appendix of this User Guide.

Appendix

Some additional things you can do right now to get ready!

Below are some of the key actions you can take right now to prepare for CVMS and administering the COVID-19 vaccine.

- Identify an **internal single point of contact for your employees** to send questions or provide feedback related to the administration of COVID-19 vaccine.
- Identify your organization's **users that need access to CVMS and confirm that these users have a valid NCID**. Instruct users that do not have an NCID to create an NCID and provide it to you. **Complete the HCP User Onboarding Template**.
- **Fill out the State-provided Recipient Bulk Upload Template** with the requested information for each of your eligible employees or individuals that meet Eligibility criteria to receive the COVID-19 vaccine.
- Provide orientation and training materials to your organization's designated primary and back-up vaccine coordinators.
- **Train your staff that are designated to use CVMS** for receiving COVID-19 vaccines, managing inventory levels, checking-in recipients prior to receiving the vaccine, and documenting vaccine administration on how to use the tool (see *schedule on previous slide*).
- **Train designated staff on appropriate handling, storing, and administration of the COVID-19 vaccines**.
- **Obtain a copy of the Emergency Use Authorization (EAU) Fact Sheet for each COVID-19 vaccine product** your organization receives and establish a process to **provide a printed copy of this document to each recipient** prior to administration of the vaccine.
- **Train designated vaccine administrators on how to report an adverse event in VAERS following a COVID-19 vaccine administration**.

This checklist contains recommended action items to help organizations ensure their readiness to receive and administer the COVID-19 vaccine. Providers must be approved through the CVMS Provider Enrollment Portal before beginning the readiness checklist. The State will contact providers for enrollment in accordance with the Vaccine Distribution Prioritization framework. Please visit the NCDHHS COVID-19 website for further information: <https://covid19.ncdhhs.gov/vaccines>.

The action items below are grouped by topic (Onboarding, Training, Communications and Vaccine Administration Preparation) and listed in recommended sequence to address. Action items that are shaded blue are only applicable to Health Care Provider (HCP) organizations that are enrolled with the State of North Carolina to administer COVID-19 vaccines.

Supporting reference materials can be found in the Appendix beginning on page 12.

Please go to the COVID-19 Vaccine Management System (CVMS) Help Desk Portal at https://ncgov.servicenow.com/csm_vaccine to submit any questions related to this Readiness Checklist.

Onboarding:

✓	Action Item	Supporting Information
<input type="checkbox"/>	1. Identify internal single point of contact for your employees to send questions or provide feedback related to the administration of COVID-19 vaccine.	Identifying and providing employees a point of contact within your organization will give employees a clear channel to get answers to their questions or communicate issues related to the COVID-19 vaccination process. Any questions related to NCID or CVMS access should be directed through the designated point of contact.
<input type="checkbox"/>	2. (Optional) Create an account on the CVMS Help Desk Portal. This site will be used to submit COVID-19 vaccine questions as well as the HCP User Onboarding and Recipient Bulk Upload Templates.	If you have any questions, issues or requests, please open a case and submit on the CVMS Help Desk Portal at https://ncgov.servicenow.com/csm_vaccine . You will need to register for an account in order to submit a request: 1. Register for an account on the website by clicking "Register" in the top right corner. 2. Populate your first name, last name, business email, and your registration

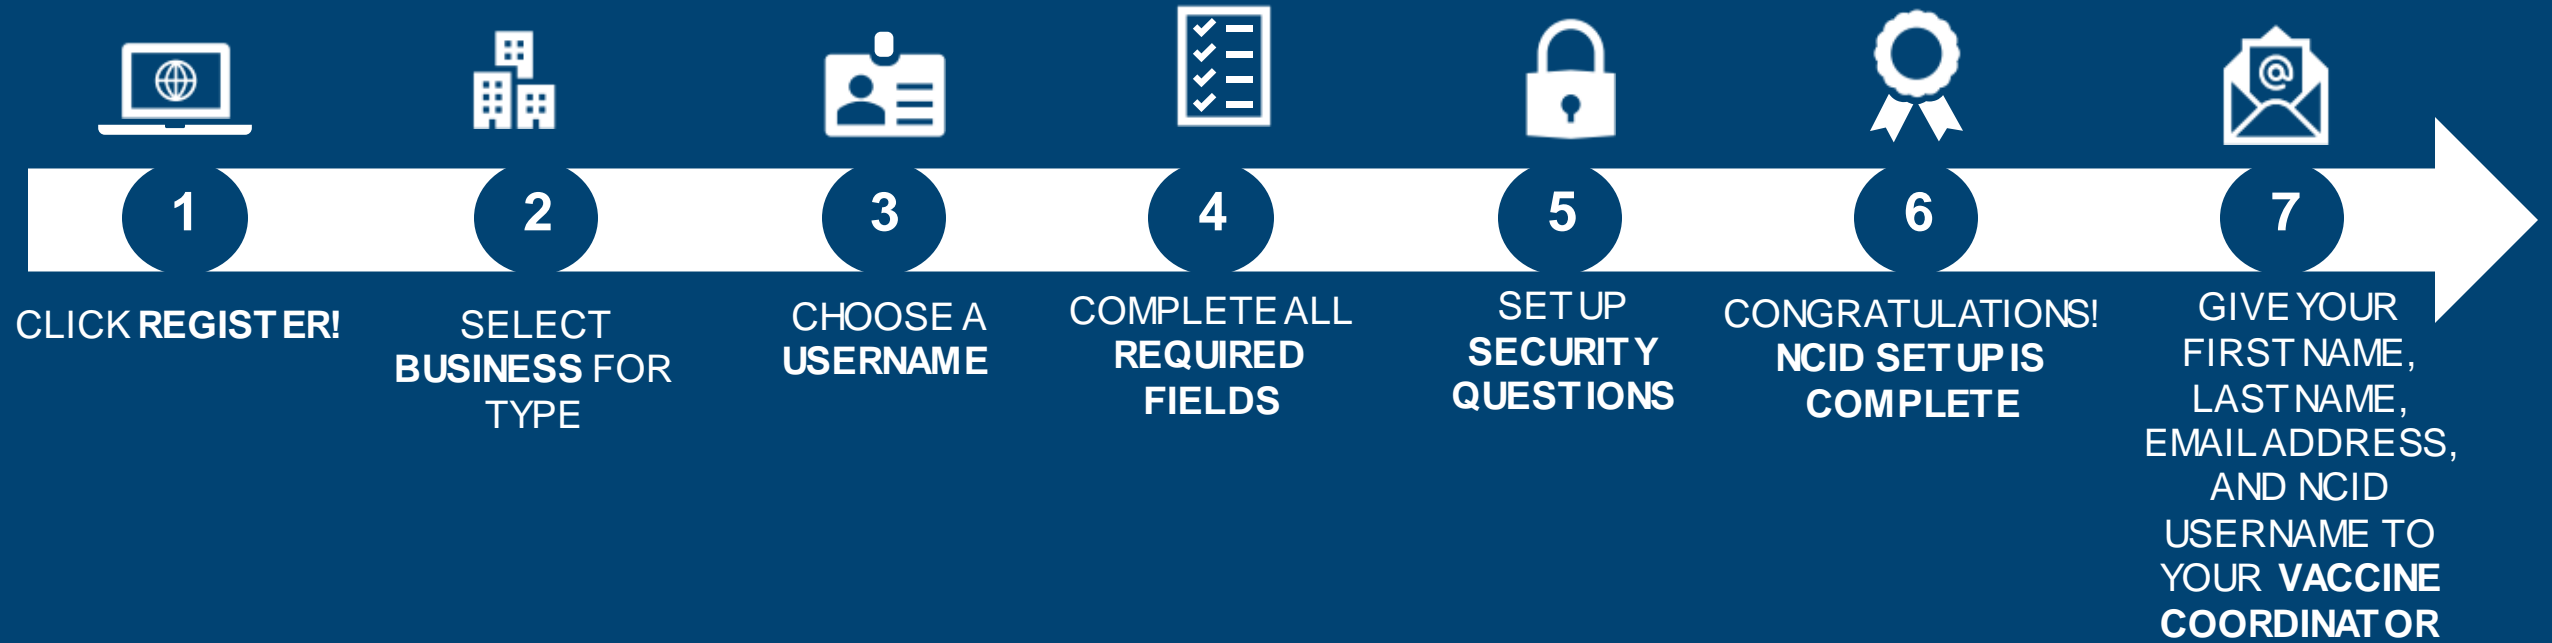

a. Freezer must hold vaccine at a temperature of -80°C to -60°C (-112°F to -76°F)	
b. Use a Digital Data Logger (DDL) for temperature monitoring	
c. For accurate ultra-cold temperature monitoring, it is essential to use an air-probe as opposed to pure propylene glycol	
d. Ensure the DDL has an alarm for out of range temperatures, low battery alarm, and displays current/min/max temperatures	
e. Ensure DDL has current and valid certificate of calibration
